MULTI QUIZ

ANATOMY

ABCD

1. On which bone are the bony prominences called the greater and lesser trochanters found?

- [ ] The scapula
- [ ] The humerus
- [ ] The femur
- [ ] The tibia

ABCD

2. The smallest bone in the human body is about 3 millimeters long and is called the stapes. Where is it?

- [ ] in the elbow
- [ ] in the foot
- [ ] in the ear
- [ ] in the knee

HUMAN

3. In which part of the body is the appendix located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

HUMAN

4. In which part of the human body is the radius located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

ABCD

5. Is the jejunum part of the small intestine or the large intestine?

- [ ] The small intestine
- [ ] The large intestine

HUMAN

6. In which part of the human body is the mandible located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

ABCD

7. In which human joint are the anterior and posterior cruciate ligaments found?

- [ ] The knee
- [ ] The hip
- [ ] The elbow
- [ ] The ankle

HUMAN

8. In which part of the human body are the muscles of the lower leg located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

INTEGER

9. How many cervical vertebrae does a human have?

Answer: _____

± You can be off by 1.

HUMAN

10. In which part of the body is the tricuspid valve located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

HUMAN

11. In which part of the body is the labyrinth located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

ORDER

12. Arrange the parts of the human lower limb, starting from the hip.

Number the items in the correct order.

- [ ] knee
- [ ] thigh
- [ ] heel
- [ ] ankle

HUMAN

13. In which part of the human body is the temporal bone located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

ABCD

14. What is the congenital condition called polydactyly?

- [ ] Extra fingers or toes
- [ ] Shortened fingers
- [ ] Missing fingers
- [ ] Fused fingers

HUMAN

15. What part of the body is the retina located in?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

HUMAN

16. In which part of the human body is the malleus located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

INTEGER

17. How many phalanges do both hands of an adult have in total?

Answer: _____

± You can be off by 4.

INTEGER

18. How many toes does the common ostrich have on each foot?

Answer: _____

HAND

19. Which finger is considered to be the weakest and, anatomically speaking, the most dependent on the movement of the other fingers?

- ☐ Thumb
- ☐ Index finger
- ☐ Middle finger
- ☐ Ring finger
- ☐ Little finger
- ☐ Palm

HUMAN

20. In which part of the human body is the ilium located?

- ☐ Head or neck
- ☐ Chest
- ☐ Abdomen or pelvis
- ☐ Arm
- ☐ Forearm
- ☐ Hand
- ☐ Thigh
- ☐ Shank
- ☐ Foot

Answers

ANATOMY

1. **The femur**
   Both trochanters are important attachment points for the thigh muscles.
2. **in the ear**
3. **Abdomen or pelvis**
   The appendix, commonly known as the 'blind bowel', is a small, blind-ended protrusion of the large intestine, usually located in the right iliac fossa. It is part of the digestive system, but its function is not fully understood.
4. **Forearm**
5. **The small intestine**
   It lies between the duodenum and the ileum. In adults it is 2 to 3 meters long.
6. **Head or neck**
7. **The knee**
8. **Shank**
9. **7**
10. **Chest**
    The tricuspid valve, or right atrioventricular valve, is, in human anatomy, a valve in the heart that prevents blood from backing up from the right ventricle into the right atrium.
11. **Head or neck**
    The labyrinth is a key organ of the inner ear located in the temporal bone, responsible for the sense of balance (vestibule, semicircular canals) and hearing (cochlea).
12. **thigh → knee → ankle → heel**
13. **Head or neck**
14. **Extra fingers or toes**
    The name comes from the Greek words "polys" (many) and "daktylos" (finger). The extra digit most often appears next to the thumb or the little finger.
15. **Head or neck**
16. **Head or neck**
17. **28**
    Each hand has 14 phalanges: the thumb has two, and each of the other fingers has three.
18. **2**
    Over long distances the ostrich runs at 50 km/h, and over short distances at up to 70 km/h. Its feet end in only 2 toes.
19. **Ring finger**
    The ring finger is considered the weakest because it shares an extensor muscle with the middle and little fingers, which limits its independent movement.
20. **Abdomen or pelvis**
