MULTI QUIZ

BIOLOGY

INTEGER

1. How many circulatory circuits are there in the human body?

Answer: _____

YES/NO

2. Is a cetacean's tail fin horizontal?

☐ No ☐ Yes

CONTINENT

3. Which continent does the cinchona tree come from?

☐ Africa ☐ South America ☐ North America ☐ Australia ☐ Asia ☐ Europe

YES/NO

4. Is lactose a simple sugar?

☐ No ☐ Yes

INTEGER

5. How many pits are in the fruit of the date palm?

Answer: _____

ABCD

6. What is another name for the bonobo?

- ☐ Pygmy chimpanzee
- ☐ Bornean orangutan
- ☐ Lowland gorilla
- ☐ White-handed gibbon

INTEGER

7. How many ribs in the human body are not attached to the sternum?

Answer: _____

CONTINENT

8. Which continent is the lychee tree from?

- [ ] Africa
- [ ] South America
- [ ] North America
- [ ] Australia
- [ ] Asia
- [ ] Europe

INTEGER

9. How many horns does the white rhinoceros have?

Answer: _____

CONTINENT

10. On which continent does the meerkat live?

- [ ] Africa
- [ ] South America
- [ ] North America
- [ ] Australia
- [ ] Asia
- [ ] Europe

INTEGER

11. How many udders does a cow have?

Answer: _____

HUMAN

12. In which part of the human body are the sacral vertebrae located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

YES/NO

13. Are inherited traits and acquired traits the same thing?

- [ ] No
- [ ] Yes

ABCD

14. Which type of RNA carries information about protein structure from the cell nucleus to the cytoplasm?

- [ ] rRNA
- [ ] snRNA
- [ ] tRNA
- [ ] mRNA

ABCD

15. What is the rear part of an arthropod's body, joined to the thorax or cephalothorax, called?

- [ ] The carapace
- [ ] The prothorax
- [ ] The abdomen
- [ ] The maxilliped

HUMAN

16. In which part of the human body is the ilium located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

YES/NO

17. Were woolly mammoths herbivores?

- [ ] No
- [ ] Yes

HUMAN

18. In which part of the human body are the muscles of the lower leg located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

ABCD

19. What is the Latin name of corn (maize)?

- [ ] Triticum aestivum
- [ ] Oryza sativa
- [ ] Hordeum vulgare
- [ ] Zea mays

HUMAN

20. In which part of the human body are the cuneiform bones located?

- [ ] Head or neck
- [ ] Chest
- [ ] Abdomen or pelvis
- [ ] Arm
- [ ] Forearm
- [ ] Hand
- [ ] Thigh
- [ ] Shank
- [ ] Foot

Answers

BIOLOGY

1. **2**
   We distinguish the systemic and the pulmonary circulation.
2. **Yes**
   Cetaceans swim using a horizontal tail fin that they move up and down – unlike fish, whose tail fin is vertical. Their pectoral fins are used mainly for steering.
3. **South America**
4. **No**
5. **1**
6. **Pygmy chimpanzee**
   The bonobo was recognized as a separate species only in 1928. Along with the common chimpanzee, it is humanity's closest living relative.
7. **4**
   The last two pairs of ribs, the 11th and 12th, do not attach to the sternum. They are called floating ribs.
8. **Asia**
9. **2**
   The larger, front horn can be up to 1.5 meters long. Rhino horns have no bony core. The white rhinoceros is the largest living rhino.
10. **Africa**
11. **1**
    A cow has one udder but four teats.
12. **Abdomen or pelvis**
13. **No**
    We receive inherited traits from our parents through DNA, while acquired traits are gained during our lifetime.
14. **mRNA**
    In the cytoplasm, mature mRNA serves as the template for protein synthesis.
15. **The abdomen**
16. **Abdomen or pelvis**
17. **Yes**
    They fed mainly on steppe grasses and, to a lesser extent, on herbs and shrubs. They plucked food with their prehensile trunks and ground it with their large molars.
18. **Shank**
19. **Zea mays**
    Corn originated in Mexico, where it was grown at least 6,700 years ago. It does not occur in the wild. The other names are common wheat, rice and barley.
20. **Foot**
