Answer: _____

± You can be off by 25 years.

YES/NO

20. Are mumps an infectious disease?

- [ ] No
- [ ] Yes

Answers

MEDICINE

1. **The eye**
   It leads to the death of retinal ganglion cells.
2. **No**
   Ebola hemorrhagic fever is a dangerous infectious disease caused by the Ebola virus.
3. **Kleptomania**
   The name comes from the Greek "kleptein", to steal.
4. **Louis Pasteur**
   In 1885 Pasteur gave the vaccine to 9-year-old Joseph Meister, who had been bitten by a rabid dog – the boy survived. Edward Jenner, for his part, developed the smallpox vaccine.
5. **Kinesiology**
   The name comes from the Greek words "kinein", to move, and "logos".
6. **Yes**
   It is also called iodine tincture.
7. **AB**
   People with this group are called universal recipients.
8. **It lowers it**
   Glucagon has the opposite effect.
9. **Orthopedist**
10. **Alzheimer's disease**
    It is named after the German neuropathologist Alois Alzheimer, who first described it.
11. **Pleasure**
    The severity of anhedonia is assessed with tools such as the SHAPS scale.
12. **A chemical compound**
    Its molecules carry signals between neurons across synapses.
13. **1928**
14. **"To split" and "mind"**
    The words are "schizein" and "phrēn". Schizophrenia belongs to the group of psychoses.
15. **A genetic disorder**
    Favism is an inherited deficiency of the enzyme glucose-6-phosphate dehydrogenase that can lead to the breakdown of red blood cells. The name comes from the Latin name of the fava bean (Vicia faba), because symptoms can appear after eating it. Not to be confused with Fauvism, a movement in painting.
16. **Dissection, cutting up**
    The word anatome comes from the verb anatemnein, meaning "to cut up".
17. **A spirochete**
18. **Healthy eating**
    This leads to significant dietary restrictions.
19. **1901**
    It was in 1901.

20. **Yes**
